

YOUR EV SSL CERTIFICATE IN 72 HOURS!

SSL247[®]
THE SECURITY CONSULTANTS

SSL247[®] can help you issue your EV (Extended Validation) certificate in less than 72 hours!

STEPS

1

VERIFICATION BY SSL247[®]

All EV certificate requests will be followed by a document that needs to be completed and signed by the order sponsor

Send us the URL you want to secure.
We will pre-check:

SSL247[®] ALTERNATIVES

FOR  CERTIFICATES

A THE EXISTENCE OF YOUR COMPANY:

via Companies House

No possible alternatives.
Without a registered company, you will not be able to obtain an EV SSL certificate.
You can, however, obtain a DV certificate (Domain Validation).

B THE DOMAIN NAME OWNERSHIP

In order to prove that the domain belongs to your company.

An email will be sent to all email address aliases (eg: admin@) for the corresponding domain.

OR

On the website of the domain you wish to secure, you will need to insert an HTML page following this model `"/.well-known/pki-validation"` containing specific code that the CA will send once the order is placed.

C THE VISIBILITY OF YOUR COMPANY ON A DIRECTORY

The Certification Authority will validate your order by phoning a publicly listed number for your company.

OR

GlobalSign will send you a specific value that you must add to your domain as TXT value record.
GlobalSign will then check for this value to verify your domain.

If option C fails, you have the options of the following methods:

Verification of your company telephone number by a legal or accounts expert.

OR

Number validation on a public directory accepted by GlobalSign

OR

A letter will be sent by post to the administrative contact at your company address. This letter will contain a password that you will need to verify with GlobalSign.

Lorem ipsum

2

CSR WITH SSL247®

ONCE THE PRE-VETTING IS COMPLETE:

- We will send you the CSR model to generate
- You will then return the CSR file to us
- We will place the order upon receipt of this

3

VALIDATION

ONCE THE ORDER HAS BEEN PLACED:

The Certification Authority will perform the three checks mentioned above, depending on your preferred methods.

- A
- B
- C

4

ISSUANCE

Your SSL certificate will be delivered within 72 hours.
